VALIDATION OF STEAM STERILISATION SYSTEMS

eurofins | Sac Ky Hai Dang

PROCESS VALIDATION REPORT

1 Purpose of validation
The purpose of this validation was to obtain scientific evidence for the efficacy of inactivation process (at least 5-log reduction in *Salmonella* spp. in low-moisture spices) by steam sterilizers in PTXIM - Food Factory Ba Ria Vung Tau.

2 Location of facility
Manufacturing factory of PTXIM is located in Ngai Giao Town, Chau Duc District, Ba Ria Vung Tau Province, Vietnam.

3 Materials to be validated
Whole Black Pepper.

4 Processes to be validated
Steam sterilization process using steam sterilizer manufactured by Pepper Heat Sterilization system (Safeserv® Brand - Made in Swiss). Temperatures during steam sterilization were recorded and confirmed in actual materials using temperature indicators.

5 Results and conclusion
The Pepper Heat Sterilization system can achieve at least 5.44-log CFU/g for Whole Black Pepper in average log reductions, under conditions defined in this report (see Section 4 for pressure, temperature).

Validation and testing day: May 09th, 2021
EUROFINS's Record Number: EUVHNC-0003084

Witnessed by: Phan Tan Danh, Microbiologist
Completed by: Nguyen Trung Dang, Microbiologist
Reviewed by: Nguyen Anh Tu, Laboratory Manager
Approved by: Nguyen Thi Hong Phi, Director

CINNAMON

Cassia Cinnamon is a spices plant in Southeast Asia that has been cultivated by Vietnamese people for a long time, suitable for the climatic conditions of many provinces and cities, and has been identified as be a key economic crop of the localities.

Vietnam is one of the five countries in the world that cultivate cinnamon and ranked the third in output with a total area of about 150,000 hectares, an average output of 70,000-80,000 tons of dried cinnamon bark/year.

At PTEXIM, we always select and supply quality cinnamon products, ensure the dishes are delicious and full of flavor.

STAR ANISE

According to the World Spice Association, Vietnam is ranked the second in output of star anise. With a history of more than 100 years, star anise is cultivated mainly in the Northern mountainous provinces where are cool climate and soil, suitable for plant growth and the best flower quality. Be famous for the "spice queen", the dishes marinated from star anise are always ready to serve fastidious diners.
